1 Post-Doc Position in Biomacromolecular Chemistry

Position	Post-Doc in the groups of Prof. Christophe Thomas and Dr. Gilles Gasser
Location	11, rue Pierre et Marie Curie, 75005 Paris
Speciality	Biomacromolecular Chemistry
Type of Recruitment	Open Call

ENVIRONNEMENT AND CONTEXT

Thanks to an open teaching position, the Thomas Group (<http://www.thomasgroup.legtux.org/>) and the Gasser Group (www.gassergroup.com) are looking for a post-doc in the field of biomacromolecular chemistry for a duration of 1 year, starting between 01.09.2018 and 31.08.2019. The successful applicant will have the opportunity to work in dynamic and multi-disciplinary research groups.

TASKS

To carry out research in the frame of a project related to the encapsulation of medicinally-relevant Ru(II) polypyridyl complexes in polymers in view of improved drug delivery as well as to teach theoretical and practical classes to students of Chimie ParisTech.

SELECTION CRITERIA

- 1) Holding a PhD degree in the fields of chemistry or biochemistry.
- 2) Excellent practical knowledge of polymer chemistry, organometallic chemistry and biochemistry.
- 3) Experience in cell culture.
- 4) Ability to write independently research articles and grants.
- 5) Proficiency in English.
- 6) Strong motivation towards research.
- 7) Team-spirit orientated.

SUPPLEMENTARY INFORMATION

Location: 5th Arrondissement in Paris.

Contacts: CV and letter of motivation to christophe.thomas@chimieparistech.psl.eu and gilles.gasser@chimieparistech.psl.eu until the 31st of July 2018.
